### **Steps to Reupholster**

1. Decide if the piece is worth reupholstering. Does it have a good, solid frame? Is the spring system reliable and intact? Does the style fit the scale of your home?
2. Select a Fabric. You may select fabric in our showroom, or call for an appointment for us to bring samples to your home. Considerations include the type of environment where the piece will be located, such as living areas, playroom, kitchen, or outdoors. We can help select a fabric that will achieve the maximum wear ability for the location.
3. Decide if you want to restyle the piece of furniture. Choices such as leaving off a skirt, adding designer fringe/cording around the edge, or adding nail head trim can be made. In addition, accents such as using different fabrics on different areas, making loose pillows, button tufts, or channel backs may be selected. Finally, changing a leg style or changing the color of exposed wood may be made.
4. Decide on new seat or back cushions. 95% of the time we change out our customers cushions because they need it. Why not take the extra step and choose a better cushion to complete the reupholstery?
5. Is the piece comfortable? Does it fit your body style? Do you need a higher seat cushion to help get out of the chair or reach a table or desk? Do you need a deeper back cushion to help seat more comfortably?
6. What about accents? Do you need arm covers, head covers, extra throw/bolster pillows? Do you want to match or accent other fabrics in the room such as draperies or spreads?
